

# DTB Test Summary Report-Sprint 28

<b>Reference:</b>	N/A	
<b>Version:</b>	5.6	
<b>Edition date:</b>	30-04-2020	
<b>Responsible entity:</b>	Orange Labs Egypt (OLE)	
<b>Authors:</b>	OLE Qualification team	

## Document history

Version	Author	Email	Date	Release Notes
1.0	Amira Ahmed	amira.ahmed.ext@orange.com	05 Dec 2018	Create the document
5.4	Alia Elshafei	<a href="mailto:Aelshafei.ext@orange.com">Aelshafei.ext@orange.com</a>	05-Dec-2019	Update Document
5.6	Mohamed Morad	Mohamed1.darwish.ext@orange.com	30-April-2020	Update Document

## 1. Purpose of the document

This is the test summary report for DTB Sprint 28 including the sprint scope, UCs to TCs traceability matrix, testing scope and testing metrics

## 2. User Story to Test Cases Tractability Matrix

ID	User Story	Test Cases	Status
#772	[OPT-US] Enhance the presentation of unknown versions in Pre-diagnostic feature in site details	<b>TC.1</b> In case site has unknown versions, Assert on presenting the following error message ("Unknown versions from DTB side")	Passed
		<b>TC.2</b> In case site hasn't any unknown versions, Assert on presenting the following error message ("Unknown versions from DTB side")	Passed
#763	[UX] Hide application server SIP registration state for level 1 users (Teaming and Connect Pro)	<b>TC.1</b> Assert that user level 1 in teaming is not able to observe Terminal status and SIP Expiration date	Passed
		<b>TC.2</b> Assert that user level 1 in Connect Pro is not able to observe Terminal status and SIP Expiration date	Passed
		<b>TC.3</b> Assert that user level 1 in teaming is not able to observe Mobile status and SIP Expiration date	Passed
		<b>TC.4</b> Assert that user level 1 in Connect Pro is not able to observe Mobile status and SIP Expiration date	Passed
		<b>TC.5</b> Assert that user level 1 in teaming is not able to observe Tablet status and SIP Expiration date	Passed
		<b>TC.6</b> Assert that user level 1 in Connect Pro is not able to observe Tablet status and SIP Expiration date	Passed
		<b>TC.7</b> Assert that user level 1 in teaming is not able to observe Equipment status and SIP Expiration date	Passed
		<b>TC.8</b> Assert that user level 1 in Connect Pro is not able to observe Equipment status and SIP Expiration date	Passed
		<b>TC.9</b> Assert that level 3 in Teaming and Connect pro is able to see SIP expiration date for all devices	Passed
		<b>TC.10</b> Assert that level 2 in Teaming and Connect pro is able to see SIP expiration date for all devices	Passed
#751	VLT : new API v3 integration for SIP connectivity testing	<b>TC.1</b> Assert that VLT API Connectivity - /runconnectlp is giving same response as from E2E side	Passed
		<b>TC.2</b> Assert that VLT API Run VLT test to get test reference is working correctly from Integration side (testing environment)	Passed
		<b>TC.3</b> Assert that Test result should be displayed in the response of VLT API Run VLT test to get test reference from Integration side (testing environment)	
		<b>TC.4</b> Assert that Testref should be displayed in the response of VLT API Run VLT test to get test reference from Integration side (testing environment)	
		<b>TC.5</b> Assert that validation exist when entering wrong values in API parameters	
		<b>TC.6</b> Assert that get result connectlp API is working correctly with same response as from E2E side	
		<b>TC.7</b> Assert that get result connectlp API is working correctly from Integration side (testing environment)	
		<b>TC.8</b> Assert that test result and progress should be displayed in the response from Integration side (testing environment)	
		<b>TC.9</b> Assert that lineport should be displayed in the response from Integration side (testing environment)	
		<b>TC.10</b> Assert that validation exist when entering wrong values in API parameters	

### 3. Regression Test Cases

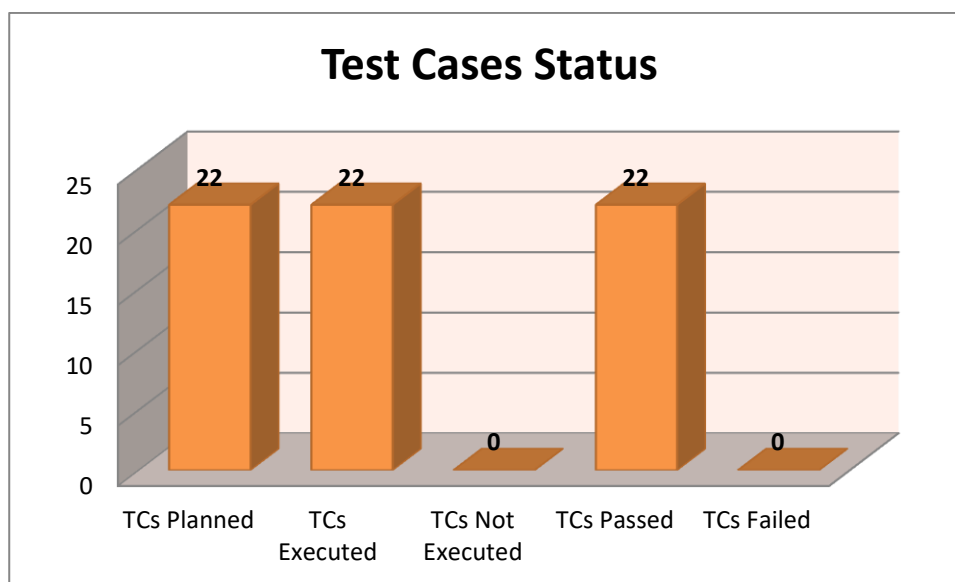

[Please click here to check all regression test cases](#)

### 4. Metrics

#### Test cases status for Sprint 28 scope

- No. of test cases planned vs executed
- No. of test cases passed/failed

Test Cases Planned	Test Cases Executed	TCs not Executed	TCs Passed	TCs Failed
22	22	0	22	0

#### Defect Severity

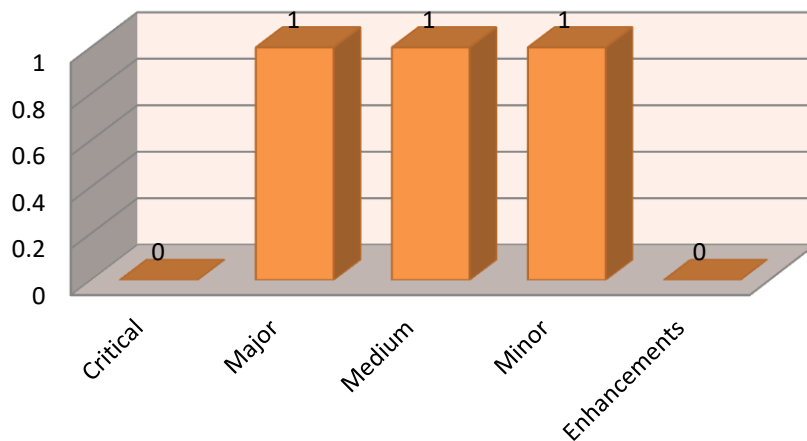

No. of defects identified and their Status & Severity

	Critical	Major	Medium	Minor	Enhancements	Total
Closed	0	0	3	1	1	5
Open	0	1	1	1	0	3
						8

### Defect Severity-Closed Issues

### Defect Severity-Open Issues

#### 5. Types of testing performed

- Manual Testing
- UI Testing
- Usability Testing
- Automation testing for the regression scope

#### 6. Test Environment & Tools

DTB Version	SAV_FE_1.28.0 SAV_BE_1.28.0

**7. Pending Tasks/Not completed**

- N/A

**8. Limitations :**

- There is a technical issue on Broadsoft platform which has impact on DTB; create terminal feature with MITEL\_6867I model for Connect-Pro. [Gitlab link](#)

**9. Go/No-Go advice:**

- The qualification team advices to go E2E with the work of this sprint.
